Training Solutions

Registered Training Organisation
National ID 91167

skilling for a better future

Who is KARBEN Training Solutions?

KARBEN Training Solutions (KTS) is a nationally Registered Training Organisation (RTO) with a reputation for providing efficient and up-to-date quality training and assessment to businesses and individuals.

Our philosophy

We believe the best results are achieved through working collaboratively with industry, businesses and individuals to develop, deliver and achieve successful and meaningful learning programs.

Our support

Our dedicated Student Mentors are available to work with learners and employers to encourage, support and motivate. Student Mentors are available via phone, email or face-to-face by appointment.

Our resources

Our resources are developed in-house through consultation with industry professionals. This means we can be responsive to changes in industry. We also offer contextualisation and can embed your organisational policies and procedures directly into workbooks.

Our people

Learners are supported by our industry qualified and experienced trainers and mentors as well as our support staff who have extensive experience in the VET industry. Our entire team is driven and passionate about skilling for a better future.

Our processes

We pride ourselves on our easy and efficient processes including enquiry, enrolment, work placement, appeals and completion. Our site visits are planned and communicated in advance to ensure minimal disruption to daily work routines.

Our communication

We maintain regular contact throughout the learning journey to ensure that both the learner and employer are supported. We believe in prompt, transparent and informative communication and strive to achieve this in all of our interactions.

Nationally recognised training

We offer nationally recognised training through the completion of full qualifications, partial qualifications and short courses. We cover a range of areas and industries including Early Childhood Education and Care, School Age Education and Care, Child Protection, Ageing, Disability, Individual Support, Leadership and Management, Business, First Aid and CPR.

Professional development

We offer a wide variety of professional development opportunities and workshops. Our PD is driven by our industry partners and planned in partnership with their needs. This means that our workshops can be tailored to suit the individual needs of your business. Some of our previous professional development topics include mentor skills, customer engagement, marketing and social media, managing workplace learning programs and caring for the carer to name a few!

Subsidised training

Our training can be offered through a number of Government subsidised training pathways. This includes NSW Smart and Skilled Traineeships, Full Qualifications and various State Funded training programs such as partial qualifications and pre-vocational programs.

This training is subsidised by the NSW Government

NESA endorsed training

Some of our courses are NESA endorsed to provide a better service to our partners. We are continually looking at new opportunities to apply for NESA endorsement. Please visit www.kts.edu.au for a full list of NESA endorsed courses on offer from KARBEN Training Solutions.

Fee-for-service training

We offer a fee-for-service model for full or partial qualifications as well as single units of competency and workshops. This model is great for those who do not meet the requirements for Government subsidised training or who may be upskilling in a particular area.

"They choose us not for what we do; but instead, for how we do it!"

Delivery pathways

Traineeships

This pathway is for learners undertaking study as part of a signed training contract with their Employer

Work-based

This pathway is for learners employed within the industry and undertaking study with employer support outside of a traineeship

Classroom delivery

Learning occurs through face-to-face or virtual sessions including weekday, evening and Saturday sessions

Blended delivery

Learning occurs through a combination of classroom sessions, work-based, virtual and/or distance delivery

What happens now?

Enquire

Contact us to discuss your training needs or simply complete a Course Enquiry form on our website.

Check eligibility

Complete an eligibility form to see what pathways are available to you and receive an obligation-free quote.

Choose your path

Decide how you want to study and what funding pathway you'd like to study through.

Enrol

Complete our enrolment process and set a plan for your studies in consultation with a KTS Trainer.

Learn

Research, read, observe, engage, discuss, write and do to help you absorb the knowledge and skills.

Practice

Practice makes perfect! Now is the time to apply your knowledge and skills in the workplace.

Complete assessment

Use what you've learnt and practiced to complete assessment tasks; theory and/or practical.

Confirm competence

After successful completion of all assessment tasks, competency can now be awarded.

Graduate and celebrate

Qualification or Statement of Attainment awarded! Display it with pride, you've earned it.

We look forward to speaking with you soon!
