

Education Support Skills Workshop

Developing educational assistants

Join us for a hands-on, interactive, face-to-face skills workshop!

Designed for current teacher aides and education support workers, this workshop offers a practical opportunity to refine your skills and build confidence in supporting diverse learners. Participants will deepen their understanding of behaviour management techniques, adaptive learning strategies, and inclusive education practices. Practical activities such as assisting in literacy and numeracy tasks, role-playing student support scenarios, and setting up classroom resources, will support students to build the foundational skills essential for working in primary and secondary schools.

This workshop aims to provide opportunities to:

- Enhance your strategies for managing challenging behaviours
- Develop learning support resources for literacy and numeracy
- Strengthen your role in fostering an inclusive and supportive classroom environment
- Practice communication and teamwork in an educational setting
- Build confidence in working one-on-one and in small groups to meet individual student needs
